Clinical Information Solutions – Drug Databases

Opportunity for pharmaceutical companies to provide clinical information solutions to the healthcare industry, publishing point of care content used in in-patient and out-patient settings.

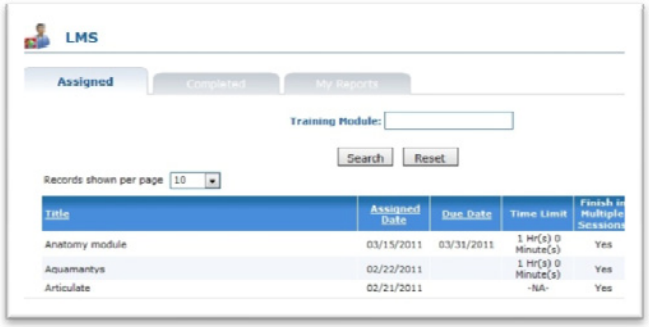

- **15 drug and disease databases**
- **10 interactive modules in 4 formats: books, online, on hand, and integration**

infodoc HEALTH

Training Platform

We provide a platform for you to load training material for your target audience. You supply the material, including an online questionnaire, and specify which segment/s of your target audience should have access. The questionnaire can be incentivised to encourage participation. Results will enable you to identify and highlight marketing and sales focus areas within the training module.

1. View assignments

2. Access module and take test

3. Get results

TRAINING MANUALS FOR IPAD

Infodoc Health offers solutions to pharmaceutical laboratories, for the sales forces to make the most of their iPad devices. We suggest you convert your training manuals into a format designed for iPad. This results in material that is more attractive and stimulating to Sales Reps.

The following possibilities are offered:
- CONVERT existing manuals into an iPad format by applying an interactive format.
- COMPLETE YOUR MANUALS. Infodoc Health, specialists in medical images, can incorporate 3D-images into your manuals, as well as videos on mechanisms of action, etc.
